Unit/Module Outcomes

# The Unauthorized Practice of Law for Nonlawyers

---

- Recognize the relevant practice limitations on non-lawyer professionals concerning legal issues.
- Differentiate the ways in which states regulate the practice of law.
  - Analyze the rules governing the practice of law in the jurisdiction in which you work.

# The Unauthorized Practice of Law for Nonlawyers

---

Forum Post aligned to these outcomes:

Does the state in which you work define the practice of law in its statutes? How about in case law? If so, do you believe the definition is comprehensive? How is it alike and/or different from the definitions you studied in this lesson? If your state does not provide a definition, find a case or other reliable source explaining why the state has taken this approach. Do you agree with the approach taken in your state? Explain and support your answer.

# Detecting Wrongdoing with Monitoring, Audits, and Investigations

---

- Evaluate the impact of the legal and regulatory framework on the business goals of your industry/workplace.
  - Develop an audit for a selected area of your workplace.
    - Conduct an audit for a selected area of your workplace.

# Detecting Wrongdoing with Monitoring, Audits, and Investigations

---

Project aligned to these outcomes:

Design and execute an audit or assessment of your organization in an HR, healthcare, or other approved area of your choice. Identify the key questions to evaluate during the audit. Once you have designed your audit (and submitted for feedback), you will execute your audit. Your deliverable will be an audit report that includes the design of the audit, the results of the audit, the maturity level of this segment of the compliance program in your organization, gap analysis, and steps that must be taken to get you to the next level of maturity.
